General English
A1-C1

Introduction:

This course gives the learner a solid foundation of the English language aspects such as speaking, listening, reading, and writing skills with a particular focus on using English naturally, as well as developing grammar and vocabulary.
The course provides the essential structures and broadens vocabulary, which is used in everyday life situations, leading to grammatical accuracy according to the learner's level of English whilst improving pronunciation and making the learner feel comfortable when speaking in English.

Who can attend:

Suitable for learners who have basic English knowledge

Duration:

440 Hours

Competencies after the course:

By the end of the course, you will have been able to:

- understand a wide range of more difficult, longer texts and recognize implicit meanings.
- express yourself fluently and spontaneously with little need to search for the right expression.
- use language flexibly and effectively for social, academic, and professional purposes.
- produce clear, well-structured, detailed text on complex subjects.

Materials:
