Train the Trainer

- Introduction:** The iTTi Train the Trainer program is designed to equip experienced teachers with the necessary skills to train and mentor other educators. This program focuses on enhancing participants' understanding of adult learning principles, developing their ability to design and deliver effective training sessions, and fostering reflective practices to improve both their own and others' teaching methodologies. Additionally, the course emphasizes the importance of supporting trainee teachers' professional growth and adapting training to diverse educational contexts.
- Who can attend:** This program is specifically for experienced teachers who wish to expand their skills by training fellow educators. It is ideal for those who have a solid foundation in teaching and are looking to take on the role of a teacher trainer.
- Duration:** The Train the Trainer program consists of six comprehensive modules, each covering a key aspect of teacher training. The total duration of the course will vary depending on the delivery format, but all participants will be able to complete the modules at their own pace within a structured timeline.
- Competencies after the course:** Upon completing the Train the Trainer program, participants will be able to:
Design and deliver effective teacher training sessions and courses.
Gain a deeper understanding of the planning and execution of training programs.
Observe teaching practices and provide constructive feedback.
Develop long-term strategies for their growth as a trainer.
- Materials:** The course is delivered through a combination of instructional materials, including detailed course guides, teaching tools, and reflective exercises. Participants will also engage in hands-on training, observations, and feedback sessions. The course can be taken online or in person, providing flexibility for participants to choose the mode that suits their needs.
- Format:** Online / Onsite
